

(R)evolutionary wear for (R)evolutionary kids

INDHUE is an Italian brand of sustainable and fair kidswear (1-8 years), ethically handmade in India.

We founded INDHUE in 2019, to celebrate the playful and curious soul of children and their constant need to feel free to experience their identity in complete symbiosis with nature.

Organic fabrics (GOTS certified), botanical dyes and craftsmanship is the core of our brand.

In a world in which the frenetic industrialization is putting in serious danger the future of our Planet, we have decided to change direction embracing a slow, conscious and (r)evolutionary philosophy.

We are committed to create 100% organic, healthy and long-lasting children clothes, without using any kind of chemicals or hazardous substances during the entire production process.

This approach contributes to generate a low-impact circular productive process completely focused on sustainability and fairness, which allows us to re-establish a deep connection with our Earth and our roots.
